

Love is...

Brittany Kennedy

Love is a powerful emotion.
Love can cross time or oceans.
Love builds character in us all.
Love is most powerful when two fall.
Love brings light where darkness exists.
Love can come with a single kiss.
Love heals the unseen wound.
Love nurtures the child in the womb.
Love compels us to act and not be acted upon.
Love may sometimes seem like a con.
Love comes in the most unexpected places.
Love can fill all the empty spaces.
Love builds what hate may destroy.
Love and hate can bring sadness or joy.
Love binds what hate tears apart.
Love and hate reside in the heart.
